RMKS/

1. Purpose

a. This message promulgates Commander, Navy Reserve Force (CNRF) guidance for BBSS Phase 2 implementation per refs (a) and (b). BBSS Phase 2 is directed to be executed per refs (c) and (d).

2. Background

a. IAW ref (b), the Navy Reserve Force will have the capability to activate up to 50,000 SELRES Sailors within 30 days of a SECWAR order or CNO N3N5N7 validation of a service requirement in order to

provide Combatant Commanders (CCDRs) and Fleets the predictability necessary for effective operational planning for contingency.

3. Commander's Intent

a. The Navy Reserve Force will complete and maintain medical and administrative BBSS IAW refs (a) through (e). In support of the Adaptive Mobilization (AM) Mass Activation Process, this message directs the execution of BBSS Phase 2 to screen SELRES Sailors assigned to a priority mobilization (PRI-MOB) unit and a Tier 1 or Tier 2 mobilization billet per ref (d).

4. Execute

a. BBSS Phase 2 is directed to be completed by 30Jun26. As of the release date of this message, NRAs will begin screening all Navy SELRES attached to a PRI-MOB unit who are assigned a Tier 1 or Tier 2 mobilization billet per ref (d). NRAs will refer to the information sources identified in paras 4.a.(1)-(2) for PRI-MOB unit assignments and Tier 1/Tier 2 mobilization billet assignments.

(1) BBSS Phase 2 Activation Screening Tool, link here: <https://flankspeed.sharepoint-mil.us/:f:/r/sites/CNRFBBSSImplementationECHI IIIVV2/Shared%20Documents/General/BBSS%20Phase%202?csf=1&web=1&e=iu bdhZ>.

(a) The BBSS Phase 2 Activation Screening Tool is an updated version of the BBSS Phase 1 Activation Screening Tool. It captures the previous work done to complete Phase 1, and applies it to the additional work required for Phase 2. Within this updated tool, NRAs will:

i. Sort for their assigned PRI-MOB unit assigned Sailors who are also assigned a Tier 1 or Tier 2 mobilization billet.

ii. Track completion of PRI-MOB unit member Tier 1 and Tier 2 screening.

iii. Upon completion and electronic submission per para 4.b., enter the vetting completion date and vetting individual name for each member screened.

(b) The BBSS Phase 2 Activation Screening Tool is for NRA tracking of ref (d) screening requirements. Navy Reserve Readiness Units (NRRUs) will provide updates to the NRA for respective requirements, but will not be granted direct access to the BBSS Phase 2 Activation Screening Tool itself.

(2) Tier 1 and Tier 2 mobilization billet assignments are also identified via the ZipServe Activation Screening portal, link here: <https://locker.private.navyreserve.navy.mil/zipserve/home>.

(a) The ZipServe Activation Screening portal identifies the assigned screening criteria for each SELRES in a mobilization billet. See para 4.b.(2) for additional guidance regarding the ZipServe Activation Screening portal.

b. Required screening documents per ref (d) are to be completed and uploaded IAW the following guidance:

(1) Ref (d) Pre-Deployment Medical Screening.

SELRES/NRAs are to download the assigned DD Form 2807-1, and NAVMED 1300/1 (Tier 1) or NAVMED 1300/4 (Tier 2) medical screening forms directly from CNRF N9 Medical Process Management Portal (MedProc),

complete all sections, and upload the completed documents back via the BBSS Phase 2 link on CNRF N9 MedProc. Link here: <https://private.navyreserve.navy.mil/cnrfc/N-Codes/N9/MedProc/SitePages/Landing.aspx>.

(2) Ref (d) Pre-Deployment Administrative Screening.

SELRES/NRAs are to download the assigned NAVPERS 1300/22 RC Tier 1 or RC Tier 2 screening checklist directly from the ZipServe Activation Screening portal, complete Section 1, and upload back to the ZipServe Activation Screening portal. Link here: <https://locker.private.navyreserve.navy.mil/zipserve/home>.

c. NRAs will use all available medical screening resources as directed in ref (e).

(1) Adaptive Mobilization Medical Units (AMMUs) from each respective Navy Reserve Region Readiness and Mobilization Command (REDCOM) will support by conducting the required screening for SELRES per ref (d).

d. Per para 4.b.(1), selected NRA Medical Department representatives will track and report to CNRF N9 (via their ISIC Medical Department) on the disposition of any potentially deployment-limiting conditions identified as a result of the required screening i.e., whether the condition has been resolved or if an MRR, TNPQ, or LOD packet has been initiated.

e. Questions regarding the BBSS Phase 2 MedProc and ZipServe Activation Screening portal at the NRA level will be routed to their ISIC, and higher to CNRF/C N9 for MedProc and CNRF/C N36 for the ZipServe Activation Screening portal as necessary.

(1) Training material for the ZipServe Activation Screening portal and MedProc screening document submission and tracking will be provided via the BBSS Implementation MS Teams channel here: <https://flankspeed.sharepoint-mil.us/:f:/r/sites/CNRFBBSSImplementationECHIIIIIV2/Shared%20Documents/General/BBSS%20Phase%202/BBSS%20Phase%202%20Training?csf=1&web=1&e=vheKD3>.

(2) Any updated guidance will be promulgated via the CNRF N3 AM Action Officer Teleconference held on the first and third Wednesdays of the month.

(3) Additionally, CNRF N36 BBSS Office Hours for ECH III/IV/V commands will continue to be held each Wednesday at 1500 ET via the CNRF BBSS Implementation MS Teams page located here: https://dod.teams.microsoft.us/l/channel/19%3Adod%3AwY1D1crcGy2LT0eb2HbftD7ii_PCus7Y57XPWJ2up1E1%40thread.tacv2/General?groupId=7df88757-0e30-4bbd-9865-2e0fa10a9387&tenantId=e3333e00-c877-4b87-b6ad-45e942de1750.

5. Amplifying Guidance.

a. Medical and administrative BBSS supports warfighting readiness to achieve 50K/30D.

b. If required to accomplish the required screening items, SELRES Sailors will be placed in a qualified status (drill status, annual training (AT), active duty for training (ADT), etc.) per ref (e). SELRES Sailors' leadership will prioritize drill weekend tasks, re-scheduled AT, ADT, etc. to complete the screening within the required deadlines.

c. Screening definitions per ref (d):

(1) Tier 1 screening refers to requirements for overseas, remote, and operational assignments. See ref (d) Figure 1-1 and Figure 1-2 for specific mandatory screening documents.

(2) Tier 2 screening refers to requirements for expeditionary assignments. See ref (d) Figure 1-1 and Figure 1-2 for specific mandatory screening documents.

d. PRI-MOB units are identified via the AC Executive Committee (EXCOM) Pillar Reserve Program Directors (RPDs) with the mindset of prioritizing RC Sailors needed first in mass activation, based on anticipated threats and missions.

6. Clarifications.

a. BBSS Phase 2 is specifically directed ISO the AM Mass Activation Process via the Mobilization-to-Billet Pathway. Individual Augmentation (IA) mobilization screening will continue to be conducted IAW direction provided in the body of IA mobilization orders, and IAW ref (f).

b. BBSS Phase 2 End State Goal: NRAs screen all PRI-MOB unit assigned SELRES who are also assigned to a Tier 1 and Tier 2 mobilization billet IAW ref (d).

c. NRAs are to continue completing all directed BBSS screening until SELRES are fully vetted.

7. Points of Contact:

a. CAPT Christian Robertson, CNRF N3,
christian.m.robertson2.mil(AT)us.navy.mil

b. CDR Joanna Bridge, CNRF N36, LACMOB(AT)us.navy.mil

c. Mr. Roberto Lopez, CNRF N36A, LACMOB(AT)us.navy.mil

d. LCDR Alex Crow, CNRF N361, LACMOB(AT)us.navy.mil

8. Released by RADM L.A. Frost, Deputy Commander, Navy Reserve Force.//
