NARR/REF A IS NAVY RESERVE 2022 MOBILIZATION EXERCISES PLANNING ORDER. REF B IS NAVADMIN 013/22, ADAPTIVE MOBILIZATION. REF C IS COMNAVRESFOR NOTE 3060 NAVY RESERVE MOBILIZATION READINESS. REF D IS COMNAVRESFOR NOTE 3060 NAVY RESERVE MOBILIZATION MEDICAL READINESS.//

RMKS/1. Purpose. This ALNAVRESFOR directs units identified in paragraph 5 assigned to Navy Reserve Centers (NRCs) in the Navy Reserve Region Readiness and Mobilization Command (REDCOM) Norfolk and Jacksonville regions to participate in the Navy Reserve mass activation exercise 2022-1 (MAX 22-1) starting 01MAR2022 and ending 31MAR2022 in accordance with the mobilization exercise planning guidance and timeline of reference (a).

2. Background. In 2021, Commander, Navy Reserve Force planned, executed, and completed three mobilization exercises (MOBEXs) to develop, test, and evaluate distributed activation (DA) and distributed deactivation (DDA) processes. In September 2021, a new construct for mobilization named adaptive mobilization (AM) was conceptually approved by the Chief of Naval Personnel (CNP) and the Chief of Navy Reserve (CNR). AM was designed to satisfy both steady-state and mass activation requirements and encompasses all processes of DA, distributed mobilization (DM), distributed de-mobilization (DDM), and DDA. The AM construct was announced via reference (b). As, we continue to urgently execute and leverage Force readiness improvements directed in references (c) and (d), FY22 MOBEXs will play a substantial part in the evaluation of

our progress to drive readiness across the force and the continued development and improvement of AM processes. MAX 22-1 is the first in the series for FY22.

3. Commander's Intent. Commander, Navy Reserve Forces Command (CNRFC) executes adaptive mobilization (AM) to mobilize designated personnel for both (1) mass activation in support of long-term strategic competition as well as (2) steady-state and emergent ad hoc augmentation. Exercises evaluate and improve mobilization processes & readiness for strategic competition. To that end, MAXs, mobilization-to-billet exercise (M2BX), and integration into Fleet exercises (FLTX) as well as planning for Large Scale Exercise (LSE) 2023 were directed in reference (a).

4. Execute. CNRFC will execute MAX 22-1 with REDCOM NORF, REDCOM JAX, subordinate NRCs, and selected units.

A. Units identified in this message will complete mobilization requirements in coordination with their NRC. NRCs/participating unit members will find the required documents on the CNRFC N15 Distributed Activation SharePoint Portal.

<https://private.navyreserve.navy.mil/cnrfc/N-Codes/N1/covid/Pages/default.aspx> (CAC required). After selecting the appropriate "mob workflow" members will find required documents under the appropriate tab. Pay packet documents are expected to be 100% complete and accurate prior to submission. NAVPERS 1300/22 Expeditionary Screening Checklist (Section 1 & 2) and the NAVMED 1300/4 Expeditionary Medical and Dental Screening as well as any associated key supporting documentation shall be completed. Do not simulate completion of any checklist items. NRCs shall report checklist items that were not able to be completed to their REDCOM via after action report (AAR). NRCs will aggregate data and report shortfalls (i.e. 12 members do not have a GTCC, 15 members require an official passport for their mob-to-billet ultimate duty station but do not possess one, 10 members require an audiogram, etc.) in their AAR. The AAR is intended to consolidate issues or shortfalls NRCs are experiencing executing AM processes and include possible solutions to alleviate the issue.

B. REDCOM NORF and REDCOM JAX will use data consolidated from their NRCs AARs and submit ECH IV AARs to CNRFC by close of business 15 April 2022. A scorecard template is posted on CNRFC N15 Distributed Activation SharePoint Portal (link provided above) as a tool for NRCs to use to aggregate uncompleted checklist item data in support of AAR generation.

5. Admin/Logistics. The following units organized by REDCOM/NRC are directed to participate in MAX 22-1:

A. REDCOM JAX
