PROGRAM MANAGER NOTES

Happy New Year Strategic Sealift Officer Force,

As we start 2025, review VADM Nancy Lacore's Navy Reserve Strategic Advantage. If you have not read it, please do. As she releases additional information on three strategic initiatives (Warfighting, Warfighters and Foundation), let's move out in support where we can.

Focusing on our SSO Foundation, we have poor data to assess how ready our Force is. Work with your C2 structure and CNRFC N14 to improve our:

- Additional Qualification Designator (AQD) MMC accuracy (Group 1),
- Military Service Obligation (MSO) compliance and participation (Group 2),
- Medical Readiness plan (Group 3) for smooth orders processing, and
- NSIPS Civilian Employment Information (CEI) that includes recent sailing experience (Group 4).

Do you have your FY25 ADT planned yet? SSOF ADT Questionnaires need to be submitted by March 31, 2025 to ensure funding is saved for when you want to train. The March 31, 2025 deadline effects all in the Navy Reserve. Microsoft Passkey authentication will not effect your ADT Questionnaire submission, but will effect your Flank Speed e-mail access.

Finally, get your Influenza Shot and update your military medical record: it will be a hard hold routing ADT orders.

Fraternally yours,
CDR Lee C. Dortzbach

"In peace and war"

**ADMIN**

Missing FITREPs should be addressed with your supported command first. For those missing Military Sealift Command Atlantic (MSCLANT) FITREPs, the Strategic Sealift Officer Force Director's Office (MSC N15) is following up with MSCLANT as they clear their backlog of FITREPS. Please know that CNRFC N14 cannot complete FITREPS outside of Sustainment Events (exceptions only) and Post Commission Indoctrination.

Continue to email the distro for any questions: cnrfc_n14_admin@us.navy.mil
