

Greetings Shipmates!

Greetings, this will be my last Navy Reserve Force Weekly. On Thursday 16 June 2011 Donna and I officially hand over the Navy Reserve FORCM title to CMDCM Chris Wheeler.

Please allow me to say "Thank you" for all the support you have provided to me and all the Sailors and families of your Navy Reserve.

It has been an honor and privilege to be a member of this organization that I consider to be family. Please provide Chris and Dawn with the same support you have provide us over the past three years and they will take the Navy Reserve to the next level.

Again, thank you from the bottom of my heart. Challenge Sailors and take care of families!

Have a great day!

Navy Performance Evaluation Instruction Updated

From Navy Personnel Command Public Affairs Office

MILLINGTON, Tenn. (NNS) -- An update to the Navy Performance Evaluation System instruction BUPERSINST 1610.10C was released April 21 by Navy Personnel Command (NPC).

The update cancels BUPERSINST 1610.10B and incorporates several NAVADMINs affecting performance evaluations and fitness reports.

"The changes cover new E-5 promotion recommendation rules, Physical Fitness Assessment (PFA) documentation requirements, a new billet sub-category for performance reports, details on Reserve component unit reporting responsibilities, elimination of references to the enlisted field service record and several other items," said James Price, director, Navy NPC Performance Evaluation Division.

One update incorporates new distribution rules for E-5 promotion recommendations announced in NAVADMIN 286/10, requiring the number of 'Early Promote' and 'Must Promote' recommendations not to exceed 60 percent of the E-5 group. In addition, the 'Must Promote' recommendation may be increased by one for each 'Early Promote' quota not used. The 'Early Promote' recommendation limit of 20 percent has not changed in the new instruction.

NAVFIT98A Version 29 was rolled out to the fleet incorporating the new rules. Workstations on the unclassified Navy/Marine Corps Intranet (NMCI) automatically received this new version. For non-NMCI users, the upgrade is available for download from the Navy Personnel Command (NPC) website.

Service members should verify they are using Version 29 by checking 'About NAVFIT98A' under the help tab in NAVFIT98A, which will display 'Version 2.2.0.29.'

Another update in BUPERSINST 1610.10C details new requirements announced in NAVADMIN 193/10 for documenting PFA results in performance evaluations. For performance reports with an end date of Aug. 1, 2010, or later, commands must now enter a one-letter PFA code in block 20 for each cycle completed during the reporting period. Per NAVADMIN 215/10, a new billet subcategory was added. The code 'INDIV AUG' in block 21 of the performance report is now available for Individual Augmentee Manpower Management, Global War on Terrorism Support Assignment and Overseas Contingency Operation Support Assignment participants.

For Reserve Sailors, the fourth chapter of the new instruction enables authorized mobilization unit commanding officers to write concurrent reports for Cross Assigned In (CAI) personnel, while the training unit commanding officer (CAI regular drill unit) retains regular reporting responsibilities.

These are a few of the updates published in BUPERSINST 1610.10C. To see more, review the instruction posted on the Navy Personnel Command website at <http://www.npc.navy.mil/CareerInfo/PerformanceEvaluation/>.

NAVY RESERVE SAILORS PLAY KEY ROLE IN BALTOPS 2011. Navy Reserve Sailors from Naval Cooperation and Guidance for Shipping (NCAGS)-Alpha, NOSC New York are providing support for teams during Baltic Operations (BALTOPS) 2011. NCAGS teams, whose *valued capabilities* reside entirely within the Reserve community, provide vital information to commanders and ensure the safety and security of vessels during times of crisis or military action. Working in concert with their Danish NCAGS colleagues from Naval District Bornholm, they are delivering *on demand expertise* by providing shipping information to exercise controllers and helping to coordinate boarding and intercept scenarios for the exercise.

DADT. We recently achieved a significant milestone towards our efforts to complete DADT training, reaching 92.4% Tier III completion on 06 June, 11 days ahead of the USFFC deadline for 92% or greater by 17 June. This milestone was achieved over 5 drill weekends totaling 10 days of actual drill time, with over 85% of the training taking place face to face despite the challenges inherent in a geographically diverse drilling population. Progress continues, with completion percentage rising to 94.5 as of 10 June.

NAVY RESERVE O6 LEADERSHIP SYMPOSIUM.
